Filed: 31 August 2001

Art Unit: *to be assigned*

For: REDUCING POWER CONSUMPTION IN MONITOR BY SWITCHING OFF  
HEATER POWER IN POWER-OFF MODE

**TRANSMITTAL OF DECLARATIONS**

Assistant Commissioner  
for Patents  
Washington, D.C. 20231

Sir:

This transmittal accompanies:

1. Reissue Application Declaration by the Assignee (PTO/SB/52); and
2. Reissue Application Declaration by the Inventor (PTO/SB/51).

For the above captioned reissue application.

The aforementioned Declarations have not been signed by the Assignee and the Inventor, and accordingly, Substitute Declarations with the appropriate signatures will be filed upon receipt of the serial number for the above-captioned application.

Respectfully submitted,

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**Docket Number (Optional)  
**P54428RE**

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,944,830, granted on 31 August 1999, and for which a reissue patent is sought on the invention entitled REDUCING POWER CONSUMPTION IN MONITOR BY SWITCHING OFF HEATER POWER IN POWER-OFF MODE.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above. I acknowledge the duty to disclose information which is material to patentability and to the examination of this application in accordance with Title 37 of the Code of Federal Regulations §1.56. I hereby claim foreign priority benefits under Title 35, U.S. Code §119(a)-(d) or §365(b) of any foreign application(s) for patent or inventor's certificate, or §365(a) of any PCT International application which designated at least one country other than the United States, or §119(e) of any United States provisional application(s), listed below and have also identified below any foreign applications for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:

			Priority Claimed:
<u>6135/1996</u>	<u>Republic of Korea</u>	<u>8 March 1996</u>	Yes [ X ] No [ ]
(Application Number)	(Country)	(Day/Month/Year filed)	
<u>4299/1996</u>	<u>Republic of Korea</u>	<u>8 March 1996</u>	Yes [ X ] No [ ]
(Application Number)	(Country)	(Day/Month/Year filed)	

the specification of which

☒ is attached hereto.

☐ was filed on \_\_\_\_\_ as reissue application number \_\_\_\_\_ and was amended on \_\_\_\_\_  
\_\_\_\_\_ . (If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☐ by reason of a defective specification or drawings.  
☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.  
☐ by reason of other errors.

**At least one error upon which reissue is based is described as follows:**

I believe the original of aforesaid patent to be wholly or partly inoperative by reason of my claiming more or less than I had a right to claim in the original patent, due to errors in each of claims 1 through 10, and more specifically, by failing to more broadly claim my inventions as disclosed and described in the original patent. Specifically, although the specification broadly describes power management control for monitors, independent claim 1 describes my invention too narrowly by claiming "a power supply unit for converting an AC input voltage to a DC output voltage", although my invention may be practiced "to reduce the power consumption of a color display tube", as described in column 2 at lines 57 and 58. Accordingly, it is my intent and desire to obtain broader coverage of my inventions as defined by newly presented claims 11 through 60 in this reissue application, and it is my intent and desire to obtain clarified coverage of my inventions as set forth in the amended claims 7 through 10 in this reissue application.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number
